

Fluke BC430

Provides power cord operation and charging for Fluke 430 Series Power Quality Analyzers.

Mains (Line Voltage): switchable 115 V $\pm$ 15% or 230 V $\pm$ 15% Equipped with a male receptacle plug that must be connected to a line cord/adaptor appropriate for local use. (Line cord/adaptor not included).

Specifications

Frequency (all versions)	50...60 Hz $\pm$ 10%
Output voltage	17.8 V DC
Output power	15 W
Power consumption	23.7 VA
Max. voltage to ground	600 V CAT IV per IEC 1010-1
