

KIKUSUI ELECTRONIC LOAD

PLZ334W

Product Strength :

- High speed response and variable slew rate
- Electronic Load with CV, CC , CP & CR mode
- Communication interface : GPIB , RS232C , USB
- Convenient Function for Discharging test of Cells
- Parallel Loads Connection : Max 5 units

Applications :

- Load Transient Response Test for the Power Supply Design
- Test of the Crossover point for Voltage vs Current out
- Battery Discharge Curves Analyzing

- Effective Tools for Measuring the Internal Resistance of a Battery
- Act as a fuse in a circuit for monitoring current thresholds
