

TECHGEAR INSTRUMENT

TG611DN

TG611DN Digital Insulation Tester

Product Strength :

- IP54 Water Proof
- Comply to IEE BS16 Wiring Regulation
- Testing Range : 250V, 500V, 1000V
- 0~1999M ohm Auto Range Reading
- Voltage Measurement : 0~600VAC
- Continuity Resistance Test : 0~20 ohm

Applications :

Applications in a wide range of industries including:

Electrical Testing by Power Plants , Industrials, Telecommunication companies, Commercial / Domestic Electricians .

The wide range of features makes TG611DN ideal for maintenance technicians and engineers .

The Tester generates a high DC voltage (say 1,000VDC) applied in series with a sensitive ammeter to one conductor to electrical earth . Any value of leakage current above threshold has to be investigated ,repaired and tested again.

The insulating materials coating the copper conductors can be nicked , chafed or nibbled by rats during installation . Useful tools used by electricians and cabling technicians to check the quality of the Electrical Installation .
